Shahid, a suggestion (below) from my boss regarding the confusing wording on EPA's webpage for Gold King. I'm not sure who's in charge of the PR, so I'm hoping you can pass this on.
Thanks!

Thanks. Do you happen to know who is in charge of writing what goes on that web page? The opening page has a nonsensical sentence at the beginning of the 3rd paragraph: "EPA is working closely with first responders and local and state officials to ensure the safety of citizens to water contaminated by the spill". It appears that something is missing. Did they mean "citizens *exposed* to water contaminated by the spill"? (Was anyone actually exposed?)

-Kathy
